COMPANY PROFILE

**PROCESS DESIGN, ENGINEERING
& MANUFACTURING OF**

THE MASS TRANSFER PRODUCT
IN DISTILLATION, ABSORBATION &
EXTRACTION TECHNOLOGY

www.kuberinternals.com

Kuber Precision Technology is the company offering Process Design, Engineering, and Manufacturing of the Mass Transfer Product in the field of Distillation, Extraction and Absorption Application. We adhere to optimized manufacturing practices and follows strict quality assurance plans to maintain the highest standards for our products. This helps us achieve our organizations goals both customer and employee satisfaction and a competitive product quality. Keeping in mind quality as our prime focus we undertake quality testing at various stages of production from raw material testing to PMI testing of the finished product.

Our Mass Transfer product range includes:

- ⊙ DISTILLATION COLUMN
- ⊙ ABSORPTION COLUMN
- ⊙ DISTILLATION COLUMN TRAYS
(BUBBLE CAPS TRAYS, SIEVE TRAYS)
- ⊙ DISTILLATION COLUMN TRAYS
(FLOAT VALVE TRAYS, FIXED VALVE TRAYS)
- ⊙ SHEET METAL STRUCTURED PACKING (KUBPAK Series)
- ⊙ HIGH CAPACITY STRUCTURED PACKING
(KUBPAK Ultra Series)
- ⊙ WIREMESH STRUCTURED PACKING (KUBPAK WM)
- ⊙ LIQUID-LIQUID EXTRACTION PACKING (KUBPAK Extract)
- ⊙ GRID STRUCTURED PACKING (KUBPAK Grid)
- ⊙ LAB STRUCTURED PACKING (KUBPAK Lab)
- ⊙ DIFFERENT TYPE OF RANDOM PACKING
- ⊙ COLUMN INTERNALS
(LIQUID DISTRIBUTORS & REDISTRIBUTORS)
- ⊙ COLUMN INTERNALS
(LIQUID COLLECTORS & PACKING SUPPORTS)
- ⊙ ALL TYPE OF COLUMN INTERNALS AS PER THE REQUIREMENT

Your Reliable Partner

In Complete Mass Transfer Solution

VISION & VALUES

The Kuber vision and strategic priorities define our overall direction. The Kuber values act as an inner compass, guiding all our activities. They define who we are and how we conduct ourselves.

- To become a leading Company in providing Reliable, Economically viable and superior in Quality products through innovative design and manufacturing
- To continuously upgrade the quality of our products and services
- We do our best to be a trusted associate and success partner to our customers.

QUALITY CONTROL

We offer a complete range of state-of-the-art product solutions including Structured Packing, Random Packing, Distillation Trays, Liquid distributors & redistributors, Liquid collectors, Liquid feed systems, Gas feed systems, Packing supports, Bed limiters, Mist eliminators, High performance separator internals, Static mixers and process equipment s for Chemical and Oil & Gas industry.

APPLICATION

Kuber Precision Technologies is a reliable partner in offering innovative and sustainable product solutions for performance in critical operations & adds value, strengthens the competitive position of our customers. We hold key positions in variety of industries including Chemical, Pharmaceutical, Oil & Gas & Petrochemicals, Water treatment, food & beverage by delivering high quality solutions, products & services through experienced & qualified engineers.
